

Progress Vendor Solutions Towards Commercial Deployment Readiness

Panel II - 1st Global OTIC Summit

Moderator: Ian Wong, Ph.D.

Director, RF and Wireless Architecture, VIAMI Solutions

Co-chair, Test and Integration Focus Group, O-RAN ALLIANCE

Aug. 24, 2023

Panelists

James Chen

Director, Cloud
Solution Engineering
Division II, **Quanta
Cloud Technology**

Munish Chhabra

Head, Mobility SW
and Services
Business, **Radisys**

Selena Hsu

Vice President,
Auray OTIC and
Security Lab, **Auray
Technology Corp.**

Mitsuhiro Kuchitsu

Vice Division
Manager,
Technology,
Strategy &
Compliance,
Rakuten Mobile

Mark Poletti

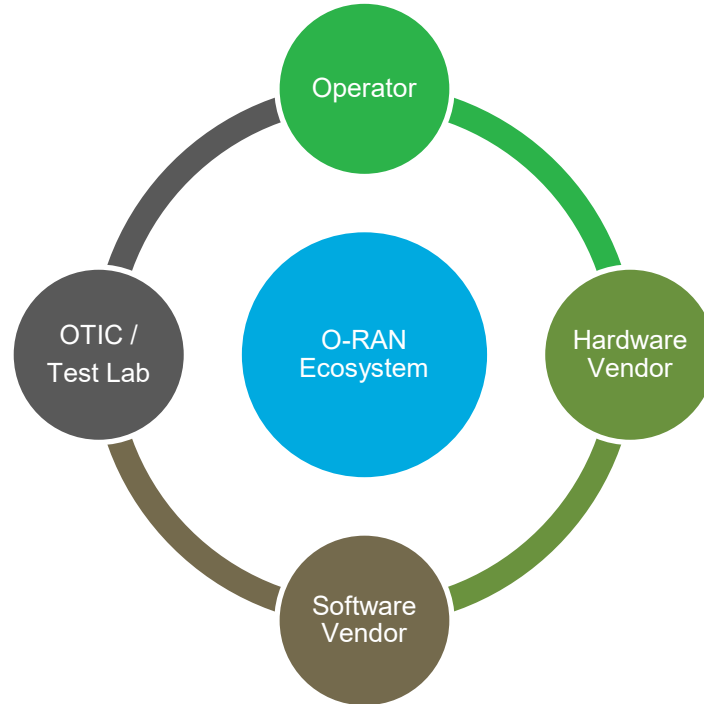

Director, Wireless,
CableLabs

Panel Ground Rules

1. Don't hog the mic
2. Respectful disagreement is welcome
3. Please be honest – brutally if needed
4. Have fun!

Perspectives

Views from various players in the ecosystem

PlugFests

Half-full

- Growing participation year-to-year from both hosts and vendors

Half-empty

- Similar tests PF to PF
- Ecosystem progress not apparent

Certification and Badging

15
Approved OTICs

O-RAN Certificate	O-RAN Interoperability (IOT) Badge	O-RAN End-to-End (E2E) Badge
<p>To verify that a product is compliant to O-RAN specifications, using O-RAN conformance tests. O-RAN certificate is awarded to a product for one or more O-RAN interfaces.</p>	<p>To prove interoperability of a pair of products connected via an O-RAN interface or O-RAN profiled 3GPP interface, using O-RAN interoperability tests. O-RAN IOT badge is awarded to both products in the pair and is applicable for a concrete O-RAN interface.</p>	<p>To demonstrate and validate that an end-to-end system or subsystem meets minimum requirements on functionality and security, using O-RAN end-to-end tests. It can also provide an indication of performance or other end-to-end functionalities. O-RAN E2E badge is awarded to all products in the end-to-end system or subsystem.</p>
